

ABOUT OUR CENTER

At the Fertility Center of San Antonio, we understand that the journey to parenthood is deeply personal and unique for every patient. With a commitment to providing compassionate and individualized care, we stand alongside our patients and their providers every step of the way, offering guidance, expertise, and unwavering support. As pioneers in Texas, we were the first practice to offer in-office IVF procedures, setting a new standard of excellence in reproductive care. Our wealth of experience has reinforced our belief that every person deserves empathy, understanding, and the best possible care on their path to parenthood. We are honored to be part of your fertility journey every step of the way.

BUILDING FAMILIES.

WHEN TO CONSIDER FERTILITY SUPPORT

Age:

- **Women over 35:** If you've been trying to conceive for 6 months or longer, it may be time to explore your options.
- **Women under 35:** If you've been unable to conceive naturally for a year or more, let's discuss how we can help.
- **Anyone, at Any Age:** Whether you're concerned about conception or interested in preserving your fertility for the future, our team is here to provide guidance and support tailored to your needs.

Health History:

- Known reproductive issues (e.g., Mullerian anomalies, septate uterus, endometrial polyps, submucous myomas)
- Diagnosed or suspected PCOS
- Concerns with male factor infertility
- Endometriosis diagnosis
- Uterine fibroids
- Thyroid conditions
- Cancer diagnosis (seeking fertility preservation)
- Diminished ovarian reserve or POI (Primary Ovarian Insufficiency)
- History of tubal ligation or tubal obstruction
- Recurrent pregnancy loss
- Ovulation induction treatment
- Known genetic issues

Family Makeup:

- If you are part of an LGBTQ+ couple seeking fertility options
- If you are single and interested in starting a family
- If you are interested in gender selection or genetic testing

With over 38 years of experience and some of the highest success rates in Texas, our **Board-Certified** Physicians at the Fertility Center of San Antonio have been a trusted partner for countless couples and individuals facing fertility challenges. Our team's dedication, discipline, and compassion are deeply rooted in their military services, where they proudly served our country before turning their focus to reproductive medicine. Combining this unparalleled experience with the latest advancements in science and technology, our physicians provide exceptional, personalized care in a comfortable and private environment, ensuring each patient receives the support and expertise they deserve on their path to parenthood.

DR. GARY SMITH,
PH.D., HCLD
